414TP SERIES

Gutter with incline Compensator for selfsupporting roof

MADE IN FRANCE 

GUTTERS

Tubular straight sided top-plate and gutter identical to the Wallis&Outdoor® pergola. The top-plate can be reinforced with one or two galvanized steel braces. The gutter can be fitted with moulded raised side which hides the end of the rafters and roofing sheets.

COMPENSATOR

- Incline compensator : **Up to 10cm** gradient
- Maximum span : **4500mm**

THERMAL BRIDGE

- **Thermal bridge** break bars
- Thermal bridge break achieved by a **zig-zag sealing**, according to gradient
- Available : An additional 30mm of insulation can be incorporated

FIXINGS

Fixings are invisible from the inside. All fixings are stainless steel.

LIGHTING

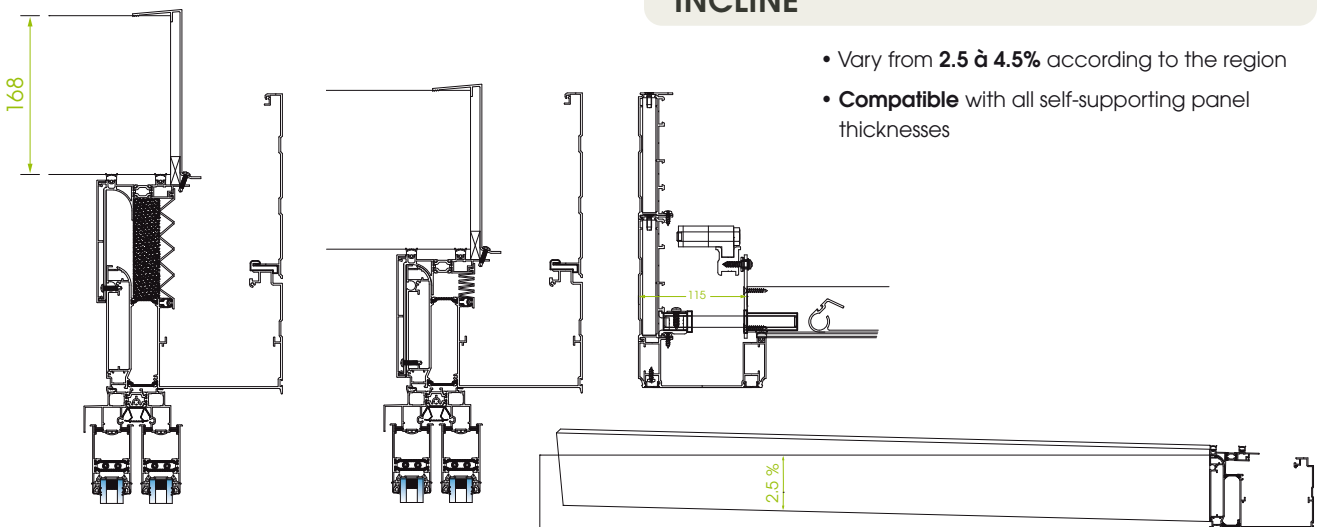

- A **LED strip** or **spotlight** can be incorporated in a specific profile
- **Power supply incorporated** in profile
- Ridge designed for the passage of power cables
- **60W** power supply for 12 spots
- **7-way remote control** can vary light intensity

OPTIONS

A specific profile connects the Wallis&Outdoor® pergola to the flat-roofed Wallis® veranda.

INCLINE

- Vary from **2.5 à 4.5%** according to the region
- **Compatible** with all self-supporting panel thicknesses
