

## 217 SERIES

### Contemporary aluminium gate

The SHAR-PAI range of aluminium sections is designed for the manufacture of swing gates (1 and 2 leaves) and sliding gates of straight Factory Spirit design.

SHAR-PEI® goes well with all contemporary styles and can be used in all kinds of combinations to embellish a property entrance: full gate, openwork, mixed, with filling panel. 10 models of filling slats available in Factory Spirit design: straight, openwork, louvered.

#### STRAIGHT DESIGN

#### DIMENSIONS

##### Swing gate up to 5.5m wide

Max. dimensions: W 5500 x H 2000 mm

##### Gate up to 2.75m wide

Max. dimensions: W 2750 x H 2000 mm

##### Sliding gate up to 6m wide

Max. dimensions: W 6000 x H 2000 mm

##### Aluminium posts

#### CROSSBARS

- Top
- Bottom
- Intermediate
- Intermediate upright

#### ACCESSORIES AND FASTENINGS

- The main accessories can be supplied in the same colours as the gate
- All screws and fastenings are in stainless steel or treated steel

#### STRONG POINTS

- Very extensive choice of designs, shapes and filling
- Large sizes, up to 6 m
- Strong, interlocked assembly
- Design of the sections and moulded parts
- Optional motorisation integrated into the upright
- Optional stainless steel wheel and rail (for sliding version)
- Optional anti-finger trap gaskets
- Possibility of aluminium posts
- Available as pre-machined
- Available in all Profils Systèmes exclusive colours: Terra Cigala®, Maohé®, Eclats Métalliques®, Profils Color®, Terre de Matières®
- Colour hold guaranteed up to 25 years\*

#### ASSEMBLY/HANGING

- For maximum strength the sections are interlocked to a depth of 65mm
- 6.3mm diameter hex cap stainless steel screws are used on an aluminium panel. All screws are invisible
- The various types of filling are mounted using anti-vibration gaskets
- The lock is embedded into the sections
- Sections can be given an unalterable and invisible aluminium support, recommended for mounting the various types of motorisation

## MOTORISATION

Motorisation is integrated into the structure of the gate:

- Invisible motor integrated directly into the sections: elegant, discreet design
- Two versions: reversible or self-locking
- Universality: adapts to all configurations of swing gates, even the most unusual
- Easy to install
- Rapid opening: 15s for 90° opening
- Easy and comfortable to use: optional emergency battery and/or key unlocking available
- Mechanical unlocking on top pivot, or electric using key contact
- Opening with Somfy remote control or smartphone (with Tahoma or Connexoon box)
- 24VDC motorisation, meeting European standard EN 60335-2-103
