

015JA SERIES

Traditional aluminium louver shutter

The Trinidad® aluminium louver shutter is a window feature blending good looks with ease of fitting, with absolutely no concession to quality and weatherproofing standards.

Its 51mm fixed frame is perfectly compatible with the Dzaa® range of traditional aluminium casements windows.

PROFILES

Simple stock management : There are only five sections in the shutter's construction

- Different top and bottom transoms (simple machining and material savings)
- Opening by casement bolt or winding handle
- Insect screen option for clipping to fixed frame

INNOVATION

1 Reinforced glass slat profile for large dimensions up to 1200mm

2 types of side mullion available :

- Standard side mullions: U-section with slide-in cap assembled onto the straight-cut transom
- Side mullions made from two complementary half-sections, enabling :
 - Access to the mechanism without removing the louvre unit once fitted and sealed
 - Exterior weatherproofing of frames fitted at a height without need for cranes, aerial platforms, or ladders

PERFORMANCE

WEATHERPROOFING :

For dimension W890xH990mm / **AEV** (air, water, wind) test results: **A*3 E*7A V*A4**

For dimension W1200 x H990mm / **AEV** (air, water, wind): up coming test results.

FEATURES

- Fixed frame width 51mm
- Reinforced glass slat profile for large dimensions up to 1200mm
- Two options for mullion installation
- Insect screen can be fitted
- Punching tool available for drain holes, transom/mullion assembly, and louvre holes for variable pitch
- Design handle with 5 positions, invisible screws
- Available in all Profils Systèmes' exclusive colours : Terra Cigala®, Profils Color®, Terre de Matières®
- Colour shades guaranteed up to 25 years

CLOSURES

Two blind closing systems :

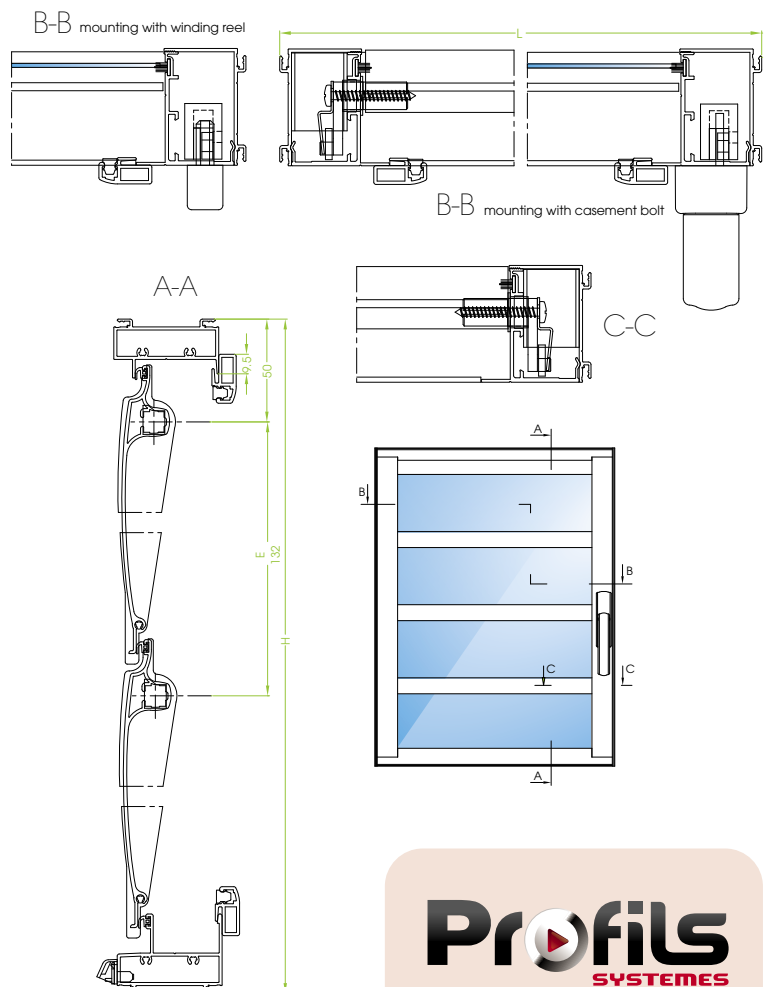

- Casement bolt
- Winding reel (manual or powered)

New Factory Spirit® design handle give 5 positions : closed, 23° / 45° / 68° / 90°. Invisible screws.

An adjustable drive system allows perfect adjustment of the louvres when fitting.

Trinidad

015JA SERIES Traditional aluminium louver shutter

Ideal for tropical regions, the TRINIDAD® aluminium louver blind guarantees good security with good ventilation and fine management of sunlight entry. Available in curved or straight FACTORY SPIRIT® design versions, it can be infilled with 6mm-thick glass, aluminium, wood or mixed slats.

GLAZING

- The 6mm infill can be glass, aluminium, or other louvers.
- In heights of 120 mm, 150 mm or adjustable

JONING SECTION

- Adaptor and joining sections available for joining together louver blind units installed side by side
- With its 51mm frame, the Trinidad® louver blind is perfectly suited to the DZAO® series of sliding and casement windows

ASSEMBLY

- The mullions and the control rod can be delivered pre-drilled
- Machining kept to a minimum: only drain holes assembly of sections, and fitting required
